## Cardiff Triumph for Society Members

A warm congratulations to The Society of Sports Therapists members, Gary Lewin, Joel Harris and Craig Gant and all the Arsenal players and staff for their victory over Southampton in this year's FA Cup final at Cardiff.

The superb achievement of winning back to back cup finals was the highlight of a very long and arduous season for everyone at the club. Arsenal joins an elite group of teams including Tottenham Hotspur, Newcastle and Blackburn Rovers who have achieved such a feat.

The Society of Sports Therapists is proud to be represented at such a top level in football by three excellent ambassadors and commends them on all their hard work and dedication. This serves not only to enhance the reputation of the Sports Therapy profession but will also inspire others to follow in their footsteps.

We wish them continued success.
